PAUL SCHWARTZBERG

Senior Software Developer | Azure | .NET | Angular

schwartzenberg@gmail.com

Summary

I have a couple decades hands-on knowledge in backend and frontend software development.
I love this work and strive to do my best. This CV shows only my experience going back about 12 years.

I can be a tool doing backend and frontend - .NET Core and REST services, as well as microservices and everything that goes with them. SQL Server, and Oracle, and Cosmos DB are databases I worked most with. And on the frontend I do equally well with Angular, React or WPF.

But I prefer to have Agency. To move the product or system I am working on forward. To take ownership in coordination with colleagues. To mentor and/or be mentored where we can.

The deployments of the above is typically with Azure and using Azure DevOps.

I am also proficient in Python and R also due to work in data science and AI. AI AI-Assisted agentic development is my daily bread, where MCPs, backend prompt engineering, and LLMs are strongly integrated into the systems I build.

Technical Skills Table (only a selection)

Level: Expert (5), Highly Skilled (4), Skilled (3), Some Experience (2), Knowledgeable (1)

Technical Skill	Years Experience	Level	Year last used	Companies where skill was applied
MS SQL Server, Oracle, mySQL, und andre Databanken	15	5	2026	All places
SQL / TSQL / PL/SQL	20	4-5	2026	All places
Python & Node.js	5	4	2025	Aybit, BIT, Systemize
HTML5	8	4	2026	Aybit, A1 Telekom, Carlsberg, iTV, BIT
TypeScript	5	4	2026	Aybit, Systemize, BIT
JavaScript	4	3	2026	A1 Telekom, iTV, Systemize, BIT
Angular 4 bis 15 & Angular Material	5	4-5	2025	A1 Telekom, Systemize, BIT
React 18 & 19	3	4	2026	Aybit, BIT & Systemize
Python	20	5	2026	All places
AWS	1	2	2025	Systemize
Azure, Azure Portal, Azure Devops	5	4	2026	Aybit, Systemize, BIT
Terraform & IaC	2	4	2025	Aybit, Systemize, BIT
Docker & Kubernetes & Helm	1	3	2025	Systemize, BIT
C#	20	4-5	2026	All places
.NET Core, ASP.NET Core. REST API	6	4-5	2026	Systemize Informatik. BIT
Blazor WASM & Server	2	4	2026	Systemize Informatik
GUI Design	10	4	2026	Carlsberg, Nokia, iTV, Systemize, BIT
GIT	12	4	2025	All places

Professional experience

01/2025 – now	**DevOps & Software Developer**	**Aybit**

New and continued development of different customer applications both in the web & frontend and also in backend, cloud, and database parts. Also with a large component testautomation,such as integration and end to-end tests , also implemented in Azure DevOps pipelines.

- . ASP.NET Core, Git, SQL, SQL Server 2022, Microservices mit Docker & K8s (Kubernetes)
- Python systematically used in backend development and tooling
- Angular & React frontend development
- LLM tuning, prompt engineering, and backend deployments.
- Implementation in Azure Services (Web Apps, Functions, API Management) & OpenAI & Azure Foundry
- Azure DevOps

Key Words	**General Stuff** Jira, Jenkins, Confluence & GIT, Kafka & Microservices, Python SoapUI, Postman **.NET** .NET Core, ASP.NET Core, Swagger & REST & WPF **Angular** Angular 15-17, NgRx, Typescript, SCSS, Bootstrap, SignalR Jest, & Cypress (E2E testing) **Azure & AWS** Azure IoC with Terraform Azure Services (Web Apps, Functions) Azure DevOps (CI/CD) Pipelines, AWS CLI
Certifications	**Azure Developer Associate (Microsoft)** **Terraform Associate (003) (Hashicorp)** **Azure DevOps Engineer Expert (Microsoft)**

06/2020 –12/2024	**Senior Software Developer**	**Bundesamt für Informatik (BIT)**

Developed “full-stack” in both frontend and backend areas of different customer applications (the customer was mainly the Bundesamt für Statisk)

These are the main areas of activity:

- C# WPF features developed in the SBER (Swiss Business and Enterprise Register) application.
- **React 17 & 18** new development of BERP (Business Enterprise Registry Platform))
- **Angular 14 & 15** development in SBER see above)
- New backend development with .NET Core and Elastic Search and SQL Server.
- CI/CD was in Azure Devops, and Scrum is almost always used in development.

Key words	**.NET** C#, Visual Studio 2022, WPF, Blazor, .NET Core, ASP.NET Core, REST API, Git, SQL, SQL Server 2022, Swagger/OpenAPI **Angular & React** Angular 15, Typescript, SCSS, Visual Studio Code, Bootstrap, , SignalR, React, JSX, Javascript, Cypress (Angular E2E testing), Visual Studio Code **Azure** Azure IoC with Terraform, Azure Services (Web Apps, Functions) Azure DevOps (CI/CD) Pipelines

02/2016 – 04/2020	Senior Software Developer	Systemize Informatik

New development and maintenance of various customer applications both in the frontend and backend areas of the applications.

Mainly the following technologies: **WPF, Angular, .NET Core, Azure, and on various databases.**

- On the frontend development was done with:
  - Angular 5 to 8 with Bootstrap, HTML5
  - React 15 to 16 development
  - Tasks completed with WPF & ASP.NET MVC
- On the backend development was done with:
  - .NET Core, with WebApi, ASP.NET Core
  - Tasks completed in Azure Event Hub, Functions, Services & Azure Devops,
  - Tasks completed on the SQL Server, and Cosmos DB.
- Azure
  - Deployments via Terraform using ARM Templates
  - Azure Event Hub, Functions, Services & Azure Devops,
  - Azure SQL Server and Cosmos DB.
  - Azure Ops & DevOps
- Tasks also completed in the area of Azure PowerShell, and Azure Office362 and Azure Devops.
- I designed and implemented of IT infrastructure software for automated monitoring and installing software updates.

Key words	**.NET** Scrum, C#, Visual Studio bis 2019, WPF, ASP.NET MVC, Web API, .NET Core, ASP.NET Core , WCF, Git, SQL Server, Oracle, MS Queuing, SQL Server Queuing, Rabbit MQ, **Angular** Angular, Typescript, JavaScript**,** React, Kendo UI, JQuery, Visual Studio Code, SignalR **Azure** Azure Portal Azure Devops (CI/CD Pipelines) Azure Cosmos DB, Azure Functions, Azure App Services

02/2014 – 01/2016	Developer / Scrum Master	Wipro & A1 Telekom (Wien/Linz)

Developer/Scrum Master for the outsourcing of ELEKTRA to Wipro India. ELEKTRA is Austria Red Crosses Ground Control Emergency Vehicle Assignment System. To transfer the project to India I trained and advised Wipro concerning the following.

- The WPF new development of new features (called Dispatching Center Interface) in ELEKTRA Ground Control desktop client.
- Expanded the ASP.NET MVC ELEKTRA website and its Web API (Webservices)
- Implementation of the DCI (Dispatch Center Interface), project for cross border datastransfer of emergency services between Red Cross Ground Control systems in Salzburg, Tirol and. Bayern – this was done via WCF/Web services.
- Expansion of the ELEKTRA mobile apps - with C# and Xamarin
- The project is also described here http://www.dispatchcenterinterface.eu/umsetzung/

Key words	Outsourcing/Offshoring, Coaching, C#, JavaScript JQuery, Visual Studio 2010 & 2013, WPF, (MVVM), Xamarin, ASP.NET, MVC, Web API, WCF, Windows Tablet, OS/iPhone, Entity Framework (Code First), Multiplatform App Development

Education

1996-2002: ***cand. polit. (Master Economics), University of Copenhagen***
2025-continueing **Master Data Science (Statistics, AI & Machine Learning), Harvard University**

Certifications & Courses

- Transcript - PaulSchwartzberg-9792 | Microsoft Learn
  - MCSD - Microsoft Certified System Developer (5 Exams including ASP.NET)
  - Microsoft Azure Developer Associate
  - Microsoft Azure Fundamentals
- Terraform 003 Associate Certified
  - https://www.credly.com/badges/2404a302-86fb-4f4c-9f27-1fe79346bcb9/public_url
- Prince2 Foundation Project management (Candidature P2R/205008)
- Scrum Master (10/2012) (sehe https://www.scrumalliance.org/community/profile/pschwartzb)
- Many courses in the following areas:
  - Angular
  - Azure Cloud
  - Blazor

Outside of work

- Family:
  - am a committed father of a soon 19-year-old daughter who knows everything.
  - am happily in a partnership.
- I avidly update my IT knowledge and skills.
- I create things. Not just software. I build and invent things (or their design) at home

Key data

Name:	Paul Schwartzberg
Citizenship	Danish
Languages:	English, Danish, German - fluently
